GENERAL INFORMATION

I am a passionate student interested in learning the newest technologies. I am always looking for projects and opportunities to learn more and to become a better professional.

SKILLS

- Experienced in React development and Web3
- Basic knowledge in Solidity
- Experienced in Angular development
- Experienced in Android development
- Basic knowledge in MongoDB
- Knowledge of programming languages such as: Javascript, Kotlin, Solidity, Python

EMPLOYMENT HISTORY

Web and mobile development community (TEC)

2+ YEAR - Frontend

Web and Android developer for over a year. I have been working on multiple projects since then. My most recent achievement is being part of the IBM Call for Code 2021 developing team for my university and finished as one of the regional finalist.

Nativo internship

3 MONTHS - Fullstack

I work for them for 3 months as an Intern and I had to use RoR + Mongo and AngularJS technologies for developing applications.

CANAM TECHNOLOGIC

2 MONTHS - Frontend

Worked in CTI for 2 months as an intern for a contest, worked on React and learned more about working as a team, with weekly meetings to see the progress made.

Plan21 Volunteer

1+ YEAR - Frontend

I am currently working on my free time as a volunteer for Plan21 YVY platform. I work with Angular and have weekly meetings to check progress.

EDUCATION

Instituto Tecnológico de Costa Rica (TEC)

Computer Engineering 2020 - Present

I am currently a student in my third year of career, I have learned a lot about algorithms, data structures and databases.

Bilingual school

Local bilingual school

I graduated from a bilingual school. I have an advanced level of English.

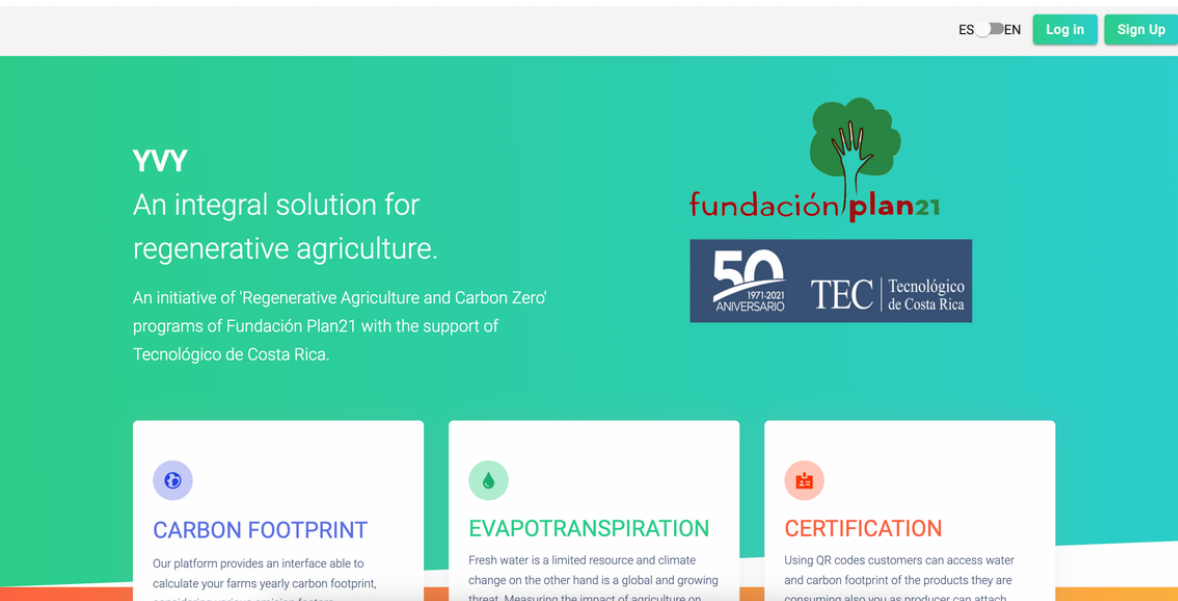

Self taught

Web development and databases

I have been learning web development for more 2 years with technologies like Angular and most recently React. I have also used Firebase, Mongo, MySQL and Postgres as databases

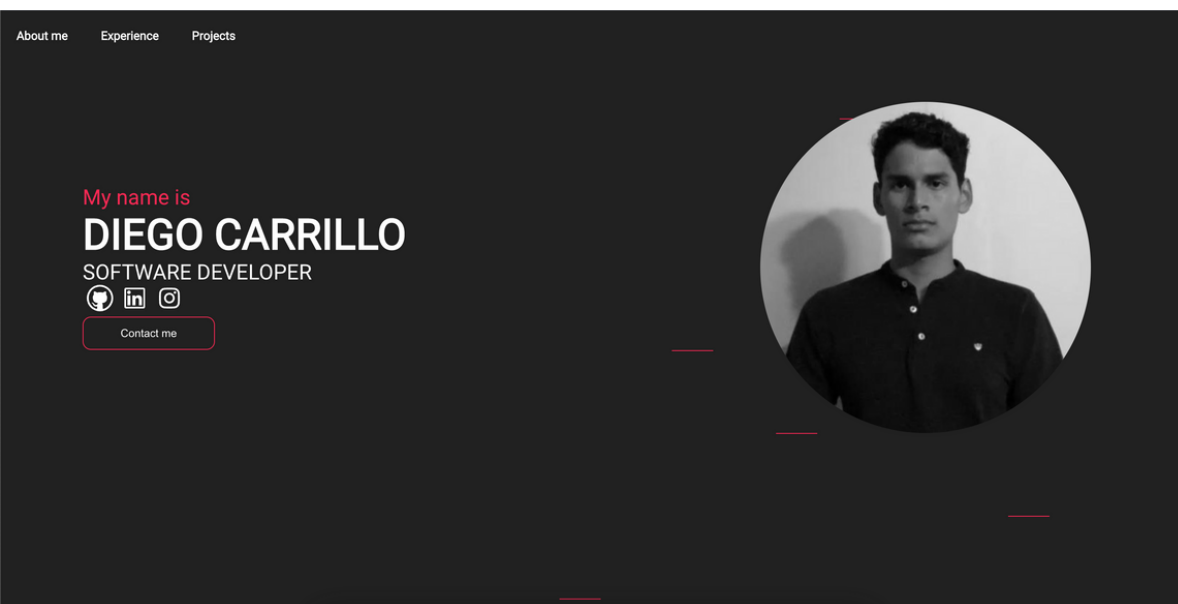

PROJECT YVY

This was a group project where we used Angular and Bootstrap as our Frontend tool, this was developed for Call For Code IBM competition where we managed to get to regional finalists.

WEB PORTFOLIO

This is my most recent project, i used React and a library named EmailJS to build it. I also used native APIs like IntersectionObserver to create a few effects..

2021 CALL FOR CODE

Regional finalist in the 2021 Call for Code.

Call for Code®

Regional Finalist

Latin America – YVY, an integral solution for regenerative agriculture

Diego Carrillo

In recognition of your achievement in the [2021 Call for Code Global Challenge](#), for building and developing an innovative solution to fight Climate Change.

Willie M. Tejada
GM & Chief Developer Advocate,
IBM

David Clark
CEO, David Clark Cause

Laurent Sauveur
Chief External Relations,
UN Human Rights

2021 SEEDS FOR THE FUTURE

Completed and graduated from the Seeds for the Future Huawei program.

CERTIFICATE OF COMPLETION

Diego Carrillo

has successfully completed the Seeds for the Future program
Issued on September, 2021.

The program requires a minimum learning of 18 hours, covering exclusive courses to learn about the latest technologies (5G, AI and cloud) and to learn from the best experts in the industry.

Catherine Chen
Corporate Senior Vice President and Director of the Board
Huawei Technologies Co., Ltd.
